Remarks on Hydrated Peroxide of Iron. By William R. Fisher, M. D., late Professor of Chemistry and Pharmacy in the University of Maryland, &c. &c. - - - - 1

On the power of Saccharine Substances in general, and Uncrystallizable Sugar in particular, of protecting the Solution of Protiodide of Iron from Decomposition. By William Procter, Jr., - - - - - - 13

Accidents from Arsenic. By John Millman, - - - 18

Note upon Gentiana Chirayita, - - - - - 20

On Salep. By Augustine Duhamel, - - - - 23

Remarks on several of the Formulæ of the United States Pharmacopœia. By David Stewart, Pharmaceutist, Baltimore, - 30

Observations towards the study of Tartaric Acid. By MM. E. Soubeiran and H. Capitaine, - - - - 33

On the Boracic Acid Lagoons of Tuscany. By John Bowring, LL. D., - - - - - - - 40

Theory of the Amidets. By M. J. Dumas, - - - 45

On the strong decoction of Zittman. By A. Wiggers, - - 51

On the Employment of a new Vegetable, Monesia, in Medicine. By Dr. G. Martin St. Ange, - - - - 53

Memoir upon the origin and distinctive characters of the Turpentines. By M. Guibourt, Professor in the School of Pharmacy, - - - - - - - 66

Minutes of the Philadelphia College of Pharmacy, - 74

Circular to the Members and Graduates of the Philadelphia College of Pharmacy, - - - - 86

Miscellany, - - - - - - - - 88

No. II.

On Cucumis Citrullus. By Benjamin I. Ritter, - - 89
Remarks on Tincture of Kino. By Benjamin I. Ritter, - - 94
Note on Tincture of Kino. By S. Shepherd, - - - 96
Notice of Professor Kane's Researches on the Ammoniacal Compounds, - - - - - - - - 97
Description and analysis of a Mineral, a Saline Incrustation, and a Bark, brought from the country lying between Santa Fe, and the head waters of the Arkansas River. By William Procter, Jr., - - - - - - 108
Notice from Dr. Robert Hare, Professor of Chemistry, &c., respecting a new Liquid Ether, and a new Ethereal Gas, and a series of Gaseous Compounds formed with the elements of water, when in the act of combining explosively, - - - - - - - 115
On the use of Lactate of Iron. By MM. Gelis and Conté, - 118
Process for the preparation of the Lactate of Protoxide of Iron. By M. Louradour, Pharmacien, - - - - 120
Observations on the supposed formation of Inorganic Elements during Fermentation. By J. Denham Smith, - - 122
Memoir upon the origin and distinctive characters of the Turpentines. By M. Guibourt, Professor in the School of Pharmacy, - - - - - - - 126
On India Opium, - - - - - - - 138
Note upon the Bark of Pereira. By J. Pelletier, - - 147
Note upon the white and opaque variety of Amber. By C. Recluz, Pharmacien at Vaugirard, - - - - - 148
Researches on the Lactates, and on the state in which urea exists in the urine of man, and some other animals. By MM. Cap and Henry, - - - - - 149
Note on the Stony Substance used in China in times of famine, under the name of Flour of Stone. By M. Biot, - - 161
Fatal effects from Acetate of Lead given in large amount for Phthisis Pulmonalis. By Dr. Bicking, of Mulhouse, - 164
On the transformation of Calomel into Corrosive Sublimate. By M. Mialhe, - - - - - - 167
On the action of the Metallic Salts on Albumen and on Animal Tissues. By J. L. Lassaigne, - - - - 170

Miscellany, - - - - - - - 172

No. III.

Chemical examination of the Root of Frasera Walteri. By John Wyeth Douglass, - - - - - - - 177
Pharmaceutical Notices. No. xviii. By Augustine Duhamel, - 182
On the Tartrate of Iron and Potassa. By William Procter, Jr., - 188
On Pepsine, the Principle of Digestion, By M. Wasmann, - 192
On Runnet and Chymosine. By M. Dechamps, Pharmaceutist at Avallon, - - - - - - - 194
Organization of Pharmacy in Norway. By M. Martins, - 201
On Paullinia, a new Medicinal Substance. By Dr. Gavrelle, - - - - - - - - 206
Chemical examination of the Bark of Quillaia Saponaria. By MM. Henry, Jr., and Boutron Charlard, - - - 209
On the Laurus Cassia of Linnæus, and the Plants producing the Cassia Bark of Commerce. By Robert Wight, M. D., - 217
Cortex Adstringens Brasiliensis, - - - - - - 224
Formulæ for the employment of the Lactate of Iron. By P. A. Cap, - - - - - - - - 228
Note upon Different Falsifications of the Lactate of Iron. By M. Louradour, - - - - - - - 229
Upon the formation of Lactic Acid, extracted from a note communicated to the Societé Philomatique. By MM. Fremy, and Boutron Charlard, - - - - - - - 231
Note upon Tannin. By M. Beral, - - - - - 232
Sulphuric Acid containing Arsenic, - - - - 236
New Test Liquor for Acids and Alkalies. By J. Marsh, - 238
Free Hyposulphurous Acid. By M. Langlois, Professor of Chemistry in the Military Hospital of Instruction, of Strasbourg, - - - - - - - - 240
Examination of False and True Angustura Bark. By M. Genist, Jr., of Angers, - - - - - - - 241
On certain facts relative to the Oxides of Sulphur. By M. Persoz, - - - - - - - - 243
On Salseparine. By M. Beral, - - - - - 245
On the preparation of Santonine. By M. A. Guillemette, - 247
Mode of detecting the Adulteration of Essential Oil with Alcohol, by means of Chloride of Calcium. By M. Borsarelli, - 249
The active principle of the Bark of the Root of the Elder (Sambucus Niger.) By E. Simon, Pharmaceutist at Berlin, - 250
On the cultivation of Roses and the Manufacture of Rose-Water and Utur at Ghazeepore, - - - - - - 250
Observations upon Syrups. By M. Guibourt, - - - 256

MISCELLANY, - - - - - - - - 262

No. IV.

On the Hydrargyro-biniodides of Potassium, the yellow iodide of Mercury, and a Compound of Biniodide of Mercury and Ammonia. By Ambrose Smith, - - - - 265
On the Tartrate of Iron and Ammonia. By William Procter, Jr., 275
Memoir upon the Detection of Arsenic forming a Toxicological Compendium, as far as regards this Substance. By Augustine Duhamel, - - - - - - 279
Introductory Lecture to the course of Materia Medica in the University of Pennsylvania. By Geo. B. Wood, M. D., - 298
Solution of Iodide of Iron. By William Procter, Jr., - 323
Some observations on the Aqueous Solution of Carbonate of Magnesia, with excess of Carbonic Acid, and on the Salt which it affords by Spontaneous Decomposition. By John Davy, M. D., F. R. S., - - - - - - 324
Notice of Chelidonine and Perropine, - - - - 328
On Granatine. By M. Landerer, - - - - 331
Upon a Pale Cinchona of bad quality found in Commerce, - 332
Note upon a Substance of Foreign Origin resembling Myrrh, and the peculiar Principle contained in it. By M. Planche, - 333
Note upon the Medical Natural History of a Concrete Juice coming from Brazil, under the name of Guarana, - - 340
Organization of Medicine and Pharmacy in Russia, - - 343

MISCELLANY, - - - - - - - 347

Accidents from Arsenic, - - - - - - 18
Acetate of lead, fatal effects of - - - - - 164
Acid, benzoic - - - - - - 193
lactic, formation of - - - - - - 231
sulphuric, containing arsenic - - - - - 236
hyposulphurous - - - - - - 240
test liquor for - - - - - - 238
Acidum hydrocyanicum, - - - - - - 32
Aconite, poisoning by - - - - - - 173
Action of metallic salts on albumen, and on animal tissues, - - 170
Adulteration of essential oils, mode of detection, - - - 249
Albumen, action of metallic salts on - - - - - 170
action of, on corrosive sublimate, - - - - 351
Alkalies, test liquor for - - - - - - 238
Almonds, poisoning by oil of - - - - - 172
Amber, white and opaque varieties of - - - - 148
Amidets, theory of - - - - - - - 43
Ammoniacal compounds, - - - - - - 97
Analysis of a bark, mineral, and saline incrustation, - - - 108
Angustura bark, true and false - - - - - 241
Aqueous solution of carbonate of magnesia, - - - - 324
Arsenic, accidents from - - - - - 18
iodide of - - - - - - 186
in sulphuric acid, - - - - - - 236
memoir on the detection of - - - - - 279

Bark, analysis of a, from Santa Fe - - - - - 108
Bark of Pereira, - - - - - - 147
Benzoic acid sublimed, - - - - - 173
Bicarbonate of soda, - - - - - - - 182
Bitter almonds, poisoning by oil of - - - - 172
Boracic acid lagoons in Tuscany, - - - - 40
Bordeaux turpentine, - - - - - - 135
Boron and Potassa, tartrate of - - - - - 36

Calomel, transformation to corrosive sublimate, - - 167
Carbonate of soda, extraction in Hungary, - - - - 174
Carbonate of magnesia, aqueous solution of - - - - 324
Cassia, plants producing - - - - - - 217
Chelidonine, - - - - - - - - 328
Chian turpentine, - - - - - - - 67
Chirayita, - - - - - - - - 20
